THEORY AND PRACTICAL CONTENTS ADAPTATION

NOT APPLICABLE

TEACHING METHODOLOGY ADAPTATION, INCLUDING TRAINING ACTIVITIES AND TOOLS FOR DISTANCE-TEACHING IMPLEMENTATION

General clarifications on the methodology: Theory classes are teaching via video conference by Cisco Webex

Practical activities of computer data analysis and discussion for project planning were realized through via videoconference with the Zoom platform. Simultaneously, students carry out the practices through the CITRIX remote connection to the UCO teaching servers.

Field trip has been replaced by visualization of video documentaries.

EVALUATION ADAPTATION

This adaptation must be coincident with that published in the Degree/Master webpage as well as in the online Moodle platform of the course.

Instrument for evaluation	Moodle Tool	Percentage
2 midterms non-contact (not continuous assessment)	Exam by test in Moodle (non-continuous evaluation)	50 (25+25)
Modified project (adapted for continuous evaluation)	Exam by test in Moodle (continuous evaluation)	40
Deliveries of practical tasks for continuous evaluation	Exam by test in Moodle (continuous evaluation)	10
Total (100%)		100 %

General clarifications on instruments for evaluation: To pass the course, minimum grade is not required in any of the evaluation methods, according to the agreement of the Governing Council approved on April 14.

The grade of "Not presented" will correspond to the student who has not taken part in a number of evaluable activities whose weights on the final grade amount to more than 50% (Art. 80.4 of the Regulations for the Academic Regime of Degree Studies).

For the student who has participated in assessment activities other than the final exam whose accumulated weight on the final grade exceeds 50% and has not attended the final exam of the subject, the teacher will record "Not presented" in the provisional publication of the ratings.

If during the review process, the student does not express his disagreement with that grade, it will be consolidated into the final grade for the course. Otherwise, you must notify the teacher and the final grade would be the weighted sum of the scores achieved in all the assessment methods to which you have attended according to the criteria established in this addendum.
