

OFERTA DE EMPLEO

Job opportunity – Data Specialist

Search Engine Evaluator for AI Models | Spanish from Spain and English

Part Time, Work from Home

What we're looking for

RWS Group is looking for Search Engine Evaluators to assess and provide feedback on text, audio, image, or video search results based on specific search queries. The goal of the project is to help understand people's intentions to better train online search engines and do so by providing ratings for the project.

Equipment you'll need

High-speed and reliable internet connection (cable modem, DSL, etc.)
A smartphone and a personal computer running the latest version of Google Chrome
State-of-the-art antivirus software to protect your computer as you surf the web
Windows or Mac OS X operating system

Job requirements

Fluent in English to be able to follow instructions and guidelines
Native-level fluency of Spanish from Spain
Ability to continually maintain quality and accuracy requirements throughout the project
Ability to work in a fast-paced environment
Strong understanding of popular culture in your locale
Web-savvy and an expert in search
Responsible, reliable, and communicative
Only one person per household can participate in this project

Apply now

To begin, please apply through "APPLY NOW" or through the link below and sign up to join our AI community as a Data Specialist. After completing your registration, you will be asked to complete an optional assessment test followed by a pre-qualifying test. Specific projects may require additional specific testing. Additional training may be required to complete tasks.

Access more opportunities through our AI community

By becoming a Search Engine Evaluator in our AI community, you'll gain access to additional freelance, remote, part-time, or work-from-home opportunities related to training AI models. Apply today!
